SUMMER 2020

A FAMILY DISH

Classic Beef Lasagna

Ingredients:

- | | |
|-------------------------------|---------------------------|
| ¾ lb. lasagna noodles | 64 oz. marinara |
| 1 tsp. extra-virgin olive oil | 16 oz. whole milk ricotta |
| 2 lb. ground beef | ½ c. chopped parsley |
| 4 cloves minced garlic | ½ c. parmesan, divided |
| 2 tsp. dried oregano | 1 large egg |
| Kosher salt | 2 lb. sliced mozzarella |
| Freshly ground black pepper | |

Directions:

1. Preheat oven to 375°. Cook pasta according to package directions until al dente, less 2 minutes. Drain and drizzle a bit of olive oil to prevent sticking.
2. Over medium-high heat, heat oil. Cook beef until no longer pink. Remove from heat and drain fat. Return beef to skillet; add garlic and oregano and cook for 1 minute. Season with salt and pepper, then add marinara and stir until warmed through.
3. Combine ricotta, parmesan, parsley, and egg with salt and pepper.
4. In a casserole dish, evenly spread a quarter of the meat sauce across the bottom. Top with a layer of noodles, a layer of ricotta mixture, and a layer of mozzarella. Repeat layers, topping the last layer with noodles, meat sauce, parmesan, and mozzarella.
5. Cover with foil and bake for 15 minutes, then increase temperatures to 400° and bake uncovered for 18-20 minutes.
6. Garnish with parsley and enjoy. Don't forget to share a photo with Drum Oil & Propane on Facebook! *Source: Delish.com*

SUMMER'S HERE AND WE'RE OPEN FOR BUSINESS!

Dear Valued Customer,

As we settle into a summer season like no other, we'd like to let you know that we are still open to service your home comfort needs such as fuel delivery, emergency HVAC service, and new equipment installations. We also want you to know that we have taken all the proper precautions to help keep our customers, employees, and families as safe as we can. Simply call our office or contact us online if you'd like to discuss anything safety-related with our team here at Drum Oil & Propane.

NOW...HOW ABOUT SOME GOOD NEWS!

Our Service Plan pricing has gone down in 2020! By now, you should have received our detailed letter explaining the updates to our 2020 Service Plan coverage. If you have not received this letter and are interested in learning more about it, please call our office and we'll be happy to mail or email you a copy today.

Please enjoy this summer's newsletter and as always, we thank you for being a customer and look forward to a great summer together!

Warm regards,
Drum Oil & Propane

WHAT YOU'LL FIND INSIDE...

USEFUL TIPS TO MAINTAIN PEACE OF MIND

✔ Automatic fuel delivery

Whether you heat with oil or propane, you can get free automatic fuel delivery from the drivers at Drum Oil & Propane. Simply contact our team and enroll for seamless automatic delivery of your choice fuel. You won't have to worry about constantly checking your fuel levels, you'll always have heat when you need it, and you don't have to worry about us delivering more than you need.

✔ Service plan enrollment

Signing up for a service plan is the best way to reduce the risk of unexpected repair costs when it comes to your heating or cooling system. Both our heating and A/C service plans offer discounts on parts and labor, along with priority service, an annual efficiency tune-up, and a safety inspection!

✔ Consider an oil or propane budget plan

If you've never thought about simplifying your bills with low monthly payments, now is the time.

✔ Check when your A/C, furnace, or boiler last had a tune-up

Annual tune-ups are essential for continued efficiency of your HVAC system!

✔ Clear debris from your oil fill pipe or propane tank

Dirt, leaves, and cobwebs tend to collect around your tank. Sweep them off for easy delivery.

Ready to sign up for automatic delivery or enroll in a service plan? [Contact us today!](#)

Ideas for Home & Yard Improvement

Many homeowners and residents of the Niagara County, NY area are spending more time at home. We see this as an opportunity to work on your home projects that you may have been putting off for months or even years!

■ Install a propane-powered generator

■ Find items in your house that could use a paint job or a touch up

■ Install the firepit you always wanted

■ Plant a flowerbed or start growing your own vegetables

■ Build a shed for additional storage

ALL-IN-ONE AIR FILTRATION, HEATING & COOLING

Homeowners in Niagara County use all sorts of appliances to balance home comfort during the transitions and seasons in New York. Don't you wish there was an all-in-one system that could provide your home with heating, cooling, and air filtration? Boy, do we have good news for you!

INTRODUCING: THE DUCTLESS MINI-SPLIT!

This fantastic unit can provide you with your top three home comfort needs:

■ Air Filtration

Air filtration is at the top of everyone's mind during the current state of the world. While we want to be clear that ductless mini-splits are not tested on coronavirus specifically, they do significantly reduce the number of bacteria, viruses, and airborne particles, giving you better respiratory comfort and safety.

■ Zoned or Whole-Home Cooling

Ductless mini-splits are sleek, quiet units that can be affixed to any wall. You can get one for an area of your home that ductwork doesn't reach, or put them in several rooms throughout your home for a satisfying, even air conditioning experience. Air conditioning is where ductless mini-splits really shine.

■ Supplementary Heating

During the spring and fall, the weather is chilly—but do you need to turn on your furnace or boiler just yet? Not with a ductless mini-split. These nifty machines provide supplementary heating at the touch of a button—perfect for those in-between seasons when you just want an additional touch of warmth.
